

# FUN @ PHYSICS

- Oobleck : The mysterious sticky mud that stays when you hold it tight but flows out and escapes the moment you let go!
- Fun with magnets : Find out how to slow down solids by throwing them into a magnetic field!

- Cloud chamber : Trace the path of cosmic particles entering earth from the outer space!
- Spinning wheels : Spin a bike wheel and see what happens when you turn it around!

- Magnetic train : The super cold magnet that runs around faster than a subway train while levitating on its track!
- Mix 'n un-mix the dyes : Play with colors by mixing them. But, un-mix and keep them the way they were before you leave!

**Don't miss the FUN!**
